

ES-360

Fluffy Type Napping Agent

PDS

Description

ES-360 can easily penetrate the fibers making it smooth and bulky. ES-360 helps reduce the electrostatic interaction between threads making it easier to brush fibers precisely for a fleecy texture. ES-360 is a necessity ingredient for fabrics fleecing.

Storage & packaging

When stored in its originally sealed packaging at 5°C - 40°C, this product may be stored for up to 8 months from its manufacturing date. Comply with the storage instructions marked on the packaging. Once past this expiration date, TAI COUNTY CHEMICAL no longer guarantees that the product meets the sales specifications. Product comes in 120 kg drums.

Characteristics

- Non-yellowing.
- Soft and fleecy feel
- Improves fabric sewability
- Chemically stable
- Easily dilutable
- Increase fabric smoothness and durability

Applications

- For plush fabrics for dry-cool effect
- Applicable for towels, knitted fabrics, acrylic fibers, Microfiber or T / C woven cloths

Properties

Appearance	Milky white liquid
Active ingredient(%)	60.0%
pH(10%Solution,25°C)	5.0±1.0
Ionic type	Nonionic
Diluent	Water

Processing

- Padding process

ES-360 :5~30 g/L
 Soaking temperature :Room temperature
 Setting temperature :150°C/2.5mins
 (Depending on the actual conditions, you can adjust the usage amount.)

Safety

This document does not contain the safety information required for the product. Please read the safety data sheet for this product before use.

The data provided above is to the best of our knowledge and experience and is without any warranty. Users should thoroughly test any application and independently conclude satisfactory performance before use.
